Nope, it looked good to me.

Thanks,

Okay. "Totes" it is. Any other typos or issues with it before I send it on to Mr. Stallworth?

Hi Linda,

I did not capture the size of the totes. At the start of our tour I could not hear a thing he was saying. So I am basically relying on your facility description for my report.

I guess it would not hurt to ask them for accuracy sake.

Thanks,

Subject: Zilkha Biomass Potential Violations

Hello again, Paula. Were you able to find anything in your notes regarding the size of the totes at Zilkha Biomass?

I've attached the list of potential violations (or potential areas of noncompliance) that I captured in my trip report ... it's a much shorter list than the one for Hanil E Hwa. I'm working on that, too, but I called Mr. Rossi to ask how they manage their lighting waste; once I have an answer, I'll know if I should site the UW rules or just plunk it all under "Failure to make a waste determination".
